

IBM Watson IoT Platform

The screenshot displays the IBM Watson IoT Platform interface. At the top, the browser address bar shows the URL `ftc9kj.internetofthings.ibmcloud.com/dashboard/devices/browse`. The page title is "Browse Devices". Below the title, there are two buttons: "All Devices" and "Diagnose". A descriptive text states: "This table shows a summary of all devices that have been added. It can be filtered, organized, and searched on using different criteria. To get started, you can add devices by using the Add Device button, or by using API." Below this text is a search bar labeled "Search by Device ID" and a "Device Simulator" toggle switch. The main content area features a table with the following data:

<input type="checkbox"/>	Device ID	Status	Device Type	Class ID	Date Added	Descriptive Location	Added By
<input type="checkbox"/>	1410	Disconnected	rasperry	Device	Nov 3, 2022 9:39 AM		sathishkumark.ece2019@dsct.ac.in

Below the table, it indicates "Items per page 50" and "1 of 1 page". At the bottom of the interface, there is a PDF viewer showing three documents: "publish data to ib....pdf", "Python script .pdf", and "software.pdf". A "Show all" button is located at the bottom right of the PDF viewer.
